TOURGEAR NORDIC
Unionsvej 15 - 4600 Koege
support@tourgear.dk

FCC-adværel

Dette enhed overholder del 15 i FCC-reglerne. Brugeren er underlagt følgende to betingelser:

(1) Denne enhed må ikke forårsage skadelig interferens, og
(2) Denne enhed skal kunne modtage enhver form for interferens, herunder interferens, der kan forårsage uønsket drift. Enhver ændring eller modificering, der ikke udtrykkeligt er godkendt af den part, der er ansvarlig for overholdelsen, kan medføre, at brugeren vil blive ansvarlig for enhver skadelig interferens.

Bemærk: Dette udstyr er designet og fundet i overensstemmelse med grænseværdierne for et digitalt udstyr i klasse B.

I henhold til del 15 i FCC-reglerne. Disse grænseværdier er fastsat for at sikre en rimelig beskyttelse mod skadelig interferens ved installation i boligområder. Dette udstyr genererer, anvender og kan udsende radiofrekvensenergi, og hvis det ikke installeres og anvendes i overensstemmelse med instruktionerne, kan det forårsage interferens. Der gives ingen garanti for, at der ikke vil være interferens i en bestemt installation. Hvis dette udstyr forårsager skadelig interferens med radio- eller tv-modtagelse, kan det måske kan findes ved at slukke og tænde for udstyret - og/eller brugeren skal at forsøge at afbøde interferensen ved at træffe en eller flere af følgende foranstaltninger:

- Orienter eller relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FC CE RoHS

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy, if not installed and used in accordance with the instructions, may cause there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
