

AP 5 WOOFER

- 1 32 mm pure copper mobile voice coil, for high power handling and outstanding low frequency control.
- 2 Water-repellent treated paper cone, featuring a profile developed with FEM (Finite Element Method) simulation technology and optimized with the Klippel R&D Scan Vibrometer.
- 3 No passive crossover required to maximize efficiency: the cone is optimised with the Klippel R&D Scan Vibrometer to obtain a calibrated mechanical low-pass cut-off frequency.
- 4 Reduced mounting depth, providing ease of installation in OEM placements.
- 5 TPU (Thermoplastic Polyurethane) surround, featuring the exclusive shallow "Triple Wave" profile, for maximum excursion linearity.
- 6 Compact basket, protected by abrasion-resistant and scratch-proof coating, the motor affixed with damping epoxy adhesive.
- 7 High current fast-on terminal with double contact on positive and negative poles for installation flexibility and quick connection. The terminal features a temperature resistant plastic cover, protecting it against accidental short circuits.
- 8 Developed with the KLIPPEL suite.
